DDA Meeting Dependent Care Grants

The financial burden of child and dependent care affects the Society's members. The impact can be so great that it often prevents attendance at meetings, especially for early career scientists or those at small institutions with limited funding. The AAS and its Divisions are committed to helping members with dependents attend meetings; therefore, members may apply to subsidize dependent care services during a meeting, for use either at the meeting location or at home.

This information will be used by the AAS Dependent Care Committee to determine eligibility for child/dependent care subsidies at the annual meeting of the DDA.

- All AAS members and also affiliate members of the DDA are eligible to apply.
- Applicants must pay to register for the DDA meeting by the application deadline: TBA.
- Applicants will be notified of their request status one week after the application deadline.
