

## Presentation Guidelines and Tips for the 2025 DDA Meeting

### Guidelines and Tips for Posters

- Please upload your posters. See this [pdf](#) [1] for instructions.
  - If you have any technical difficulties with uploading your poster, please email Sherrie Brown (sherrie dot brown at aas dot org)
  - Please do this by Sunday, May 18th, so that the content is available for the poster session.
- Please also post your poster to **your session's Slack channel**. If authors do not do this, session chairs will do so.
- All posters will be featured during the Tuesday afternoon poster sessions
- Discussion of all posters will also take place throughout the week on Slack
- It is helpful and effective for in-person presenters to stand at or be near your poster during the featured poster sessions
- Your poster must fit within the 4' by 8' display area provided

- Discussion of all talks will also take place throughout the week on Slack
- Further guidelines for **in-person presenters**:

- A laser pointer and slide advance clicker will be provided
- It is preferred for you to hook your own laptop up to the projector
  - It is essential that you give your talk while sharing your screen on Zoom, so that remote attendees can view your slides
  - Please test your equipment, including Zoom functionality, prior to the start of the session (before start of the day, during the coffee break, or lunch) with your session chair
  - Please come forward with your equipment (already logged into Zoom) during the previous speaker's Q&A, to set-up as directed by the session chair
- Further guidelines for **remote presenters**:
  - Please verify before your session that your Zoom software is updated, and that Zoom has access to your camera and microphone (and screen sharing, if desired)
- Tips
  - When preparing your presentation, we suggest approximately one slide per minute
  - Slides should be uncluttered and easy to read
  - Practice a few times so the presentation fits comfortably into the allotted time
