

Physics & Astronomy
Department Seminar

Division on Dynamical Astronomy Public Talk

Open to the Wider Campus Community

Extreme Solar Systems

Monday April 16th: 6:30-7:30

San Jose State University

Room Location & Map: <http://bit.ly/2sH98RJ>

Dr. Cristobal Petrovich is a Chilean astronomer at the Canadian Institute for Theoretical Astrophysics. His work has elucidated the formation pathways for some of the most extreme planets discovered outside our solar system to date.
